1 About this Course

1.1 Qualification Outcome

This course **NH05** leads to PGCE (M) QTS. Further clarity on the significance of different teacher training qualifications can be found [here](#).

1.2 Special Features

This course is run by the West London Teaching School Alliance (WLTSA) as Provider in partnership with (and accredited by) UCL (Institute of Education).

WLTSA enables you to choose your host school at application. Later, if there is a teaching vacancy and they want to retain you, you can be employed fairly seamlessly for the following year **without the post being advertised**. By becoming a WLTSA trainee, all our other secondary schools could also employ you this way and we operate a pool.

Our aim is to produce exceptional teachers who can then remain in alliance schools, continuing to further their career with the benefit of our on-going CPD.

1.3 The Training

Having chosen your main host school with WLTSA, you would attend the [same university sessions](#) with those who had applied through the university; have full access to university facilities and mentors; and the university still awards your PGCE. WLTSA selects a second contrasting school for your 'away' placement.

UCL Institute of Education

The Physics with Mathematics PGCE helps students to develop the professional skills and knowledge they need to teach science and mathematics in the 11-16 age range. UCL are committed to creative and interactive approaches to teaching science to promote student engagement and learning.

You would attend a range of lectures and workshops with other secondary teacher trainees, including those relating to teaching and assessing, classroom management, child protection.

At school, through an initial programme of observations, you will become familiar with the workings of the school and department (pupil groups, pastoral systems, staffing, curriculum, resources, facilities, methods of teaching, lesson planning, and assessment).

You will be treated like a member of staff and with your school mentors, you will feel supported as you become ready to teach. Our mentors are excellent experienced teachers who undertake rigorous training to develop their mentoring skills.

Your university tutor will visit you in both schools on a regular basis and liaise with your school mentor regarding your training and development. Your university tutor will carry out your final assessment in school against the national Teachers' Standards.

You will have the opportunity to teach both KS3 and KS4 and experience KS5.

2 Interviews

2.1 Two Stage Interview

We consider each application as it comes in, individually. If your application is deemed to be sufficiently good, we would then set up an interview session (usually a morning) at your chosen host school.

If you are successful at the school interview (Stage 1), we refer you on to the university and they will contact you regarding their (Stage 2) interview which takes place at UCL Institute of Education.

At your university interview day you will take part in a combination of group and individual interviews with members of the programme team, and may also be asked to undertake written or presentation tasks, depending on your subject. You will have the opportunity to ask questions and take a self-guided campus tour.

3 How School Placements Work

3.1 Choosing your School

With WLTA you select **the main host school** at application. We then later arrange your second placement at another contrasting WLTA school to provide greater depth to your training experience.

The characters and location of our schools are varied. When deciding on your preferred host school, we need you to consider where you might eventually like to work and how accessible it is to where you live.

The schools seeking trainees on this particular course are listed below.

- Fulham Cross Girls' School, SW6
- Sacred Heart High School, W6

You can read descriptions of each of these schools in our overall [WLTA Secondary School Summary Descriptions](#). Our [Map of WLTA Schools](#) may also be helpful.

Please be aware that we have other [WLTA secondary courses](#) at other schools including many for both Physics and Mathematics. You can make three choices overall when you apply.

3.2 The technical bit!

You don't have to restrict yourself to one school within a course, but each school would count as one application and you get three choices overall in Round 1. Please also be aware that we have so many partner schools that we have been forced to split artificially on UCAS into three provider names. See [How to apply & how to choose more than one school on a course](#).

3.3 Be strategic when you apply

You can always ring us up to ask how many applications (if any) are being considered by different schools at the point that you are about to apply. We also keep our website up to date so that you can see which schools have already shortlisted and are interviewing.

We commonly interview individually whenever a good application is received.

4 Fees

The tuition fee for this course is £9,250 payable to UCL.

5 Financial Support

Subject to eligibility, DfE Bursary of £26,000 (or scholarship £28k) plus early career payment £6,000 & student loan. See full details using the link below:

[Funding My Training - A page on the DfE's 'Get into Teaching' website](#)

You can take out a student loan (even if you already have an undergraduate loan). Loans for tuition fees are not means tested (whereas loans for maintenance are means tested) but you should confirm this using the link above.

While not provided directly by WLTSa, please be aware that as a full time student you would be eligible for cheaper travel in London using a student oyster card and in many boroughs you can get a reduction on your council tax payments.

6 Course Requirements

6.1 Qualifications Needed

- A UK Bachelor's degree or an overseas qualification of an equivalent standard in Physics or a Physics-related subject at 2.2 or above.

The equivalence of all overseas degrees is verified by UCL according to their requirements for international qualifications. This is in addition to any assessments by NARIC.

- Where there is insufficient Mathematics within the first degree, Mathematics A-Level at grade C or above, or equivalent is additionally required
- A GCSE, or comparable qualification, at grade C (or grade 5 for GCSEs sat in 2017 onwards) in both English Language and Mathematics.

Where appropriate, please read [Overseas Qualifications & GCSE Equivalency Tests](#).

By the end of the course you will need to be able to demonstrate proficiency in functional (everyday) English and numeracy. In some interviews you may therefore be tested to assess your current level.

WLTSa complies with all UCL's entry requirements

6.2 Personal Qualities

We want you to have passion and enthusiasm. We need trainees who can engage and inspire students to a love of learning, who are:

- committed to championing their students;
- open to learn about children's physical/social/emotional/cognitive needs and how these can affect behaviour;
- in good health with the ability to cope with stress. Teaching is incredibly rewarding, but it also requires an element of resilience!
- professional and committed to equal opportunities;
- able to communicate well in written/spoken English, with at least basic computer skills and commitment to developing these.
- have a sense of humour and an ability to laugh at yourself.

6.3 Other requirements

A realistic understanding of the role of a teacher and some current issues facing the profession is also important. It can help to spend a couple of days observing relevant

lessons in a state secondary school to strengthen your application and we recommend that you aim to gain some experience in a classroom prior to interview but this observation is not a strict requirement in itself. [Top tips for getting some observational experience.](#)

Offers are conditional on satisfactory outcome of a Disclosure & Barring Service Enhanced Check and an occupational health check both administered through the university after an offer is accepted (cost approx. £157).

7 About the West London Teaching School Alliance

7.1 Who are we?

We are a large alliance of 60 schools: nurseries, primaries, special needs, secondaries, sixth forms; faith and non-faith, maintained schools, independent schools and free schools. We have formal partnership arrangements with three universities.

Most of our schools are in Hammersmith & Fulham and Kensington & Chelsea, but we also have schools in Westminster, Richmond, Twickenham, Ealing, Isleworth, Hounslow, Hillingdon and Southwark.

The central Teaching School Office for WLTA is based at Sacred Heart High School, in Hammersmith.

7.2 Our approach to trainee recruitment

We pride ourselves in the support that we provide potential applicants and in the speed of our shortlisting. We have a detailed website which is a good place to start. We also hold fortnightly [information sessions](#) to explain the qualifications; routes into teaching; finance; and how to secure a place!

'That's the first time that I have ever properly understood it all. Brilliant!' Applicant 2018.

The Teaching School Office is staffed full time with experts to talk to on the phone.

You choose the schools when you apply. If you perform well but fail to get a place at your preferred school, we continue to work with you, recommending you to other WLTA schools of your choice rather than rejecting you.

We place significant emphasis on getting a good fit between trainee and school because we are all keenly focussed on recruitment for qualified teachers in our alliance schools the following year.

[Further opportunities to develop your career with WLTA](#)

7.3 The Accrediting Body

Our university partner for this programme is UCL Institute of Education (IOE), a global leader in teacher education. Their programmes are recognised by Ofsted as 'outstanding' in every criterion across Primary and Secondary education.

Its central location in historic Bloomsbury means that you will be studying in the heart of London. The London Underground station at Russell Square is minutes from the main building and King's Cross, St Pancras and Euston stations are also close by.

You can view UCL's online teacher training prospectus is here:

<https://www.ucl.ac.uk/prospective-students/graduate/teacher-training-programmes>

7.4 Training with a disability

WLTA and all our partner universities are committed to supporting students with disabilities. Please contact us as early as possible in your application process so that your needs are met and support can be arranged.

You can also find support and information from the university accrediting the programme that you hope to apply for:

School Direct students can access the services provided by UCL's Student Support and Wellbeing team. See the following web page for full details:-

<https://www.ucl.ac.uk/students/student-support-and-wellbeing>
