1 About this Course

1.1 Qualification Outcome

This course E280 leads to PGCE (M) QTS. Further clarity on the significance of different teacher training qualifications can be found [here](#).

1.2 Special Features

This course is run by the West London Teaching School Alliance (WLTSA) in partnership with (and accredited by) the University of Roehampton. We make prompt shortlisting decisions and will liaise with you quickly if we need additional information.

WLTSA enables you to choose your host school at application. Later, if there is a teaching vacancy and they want to retain you, you can be employed fairly seamlessly for the following year **without the post being advertised**. By becoming a WLTSA trainee, all our other secondary schools could also employ you this way and we operate a pool.

Our aim is to produce exceptional teachers who can then remain in alliance schools, continuing to further their career with the benefit of our on-going CPD.

1.3 The Training

You would enrol at the university and would attend all the same university sessions with those who had applied through the university; have full access to university facilities and mentors; and the university still awards your PGCE. WLTSA selects a second contrasting school for your 'away' placement.

As a guide: [Typical Timetable](#)

University of Roehampton

The university is at the forefront of computing education, with staff contributing to curriculum development, publications and policy at national/international level.

The programme includes practical activities, independent study, group work and academic input. Written assignments allow you to pursue your own professional interests from a foundation of core pedagogic subject knowledge.

At school, through an initial programme of observations, you will become familiar with the workings of the school and department (pupil groups, pastoral systems, staffing, curriculum, resources, facilities, methods of teaching, lesson planning, and assessment).

You will be treated like a member of teaching staff and with your school mentors, you will feel supported as you become ready to teach. Our mentors are excellent experienced teachers who undertake rigorous training to develop their mentoring skills.

Throughout your time in both schools, your university tutor visits you to monitor your progress and discuss your development with you and your school mentors.

You will have the opportunity to teach KS3-5. KS3 focusses on digital literacy, computer science and information technology. At KS4 lessons include a focus on the use of algorithms in computer programs as well as developing students' knowledge of current and emerging technologies. KS5 explores the theory of computation and the fundamentals of data representation and computer systems.

2 Interviews

2.1 One Interview

The interview process for this course may change as the year progresses depending on the Covid situation. Prior to Covid there would be an interview at your chosen host school which the university may join.

We have now moved to a new system where there the interview is online and we anticipate that this new system will persist certainly throughout the autumn term, and possibly for the remainder of the year.

You will be sent technical arrangements for the interview directly by the school and you might be asked to complete a brief subject audit questionnaire. This will help us to establish the range of your subject knowledge and whether or not a free subject knowledge enhancement course may be needed as a condition, if an offer is made. This can all be discussed at interview. You will need to show photo ID at the start of the interview.

You will need to email scans of your degree and Maths and English qualifications to WLTA centrally (Alex Dijkhuis) adijkhuis@sacredh.lbhf.sch.uk

If you are still taking your degree or GCSE equivalency tests, that's fine but if you don't have access to original certificates of exams already taken for your degree and maths and English GCSEs, this is something that you should start to resolve now. If you don't have them in time for the interview, please be assured that we can still make an offer to you but it would be subject to later verification of your qualification certificates and sometimes certified copies can take a couple of months to arrive.

We try to ensure that you have at least a week's notice of interviews.

3 How School Placements Work

3.1 Choosing your School

With WLTA you select the main host school at application and normally there are several to choose from but we are only running this particular course (which specifies a SEN host school) from The Rise School, TW13.

We then later arrange your second placement at a contrasting (mainstream) WLTA school to provide greater depth to your training experience.

You can read a description of The Rise and our other secondary schools in our overall [WLTA Secondary School Summary Descriptions](#). Our [Map of WLTA Schools](#) may also be helpful.

Please be aware that we have other [WLTA secondary courses](#) at other schools including a similar Computing course (36B7) but in mainstream schools. You can make three choices overall when you apply.

3.2 The technical bit!

You don't have to restrict yourself to one school within a course, but each school would count as one application and you get three choices overall in Round 1. Please also be aware that we have so many partner schools that we have been forced to split artificially on UCAS into three provider names. See [How to apply & how to choose more than one school on a course](#).

If you apply to more than one of our schools, it's helpful if you email us confidentially to confirm which is your first choice so that we can try to ensure a sensible order for the interviews.

3.3 Be strategic when you apply

You can always contact us to ask how many applications (if any) are being considered by different schools at the point that you are about to apply. We also keep our website up to date so that you can see which schools have already shortlisted and are interviewing.

We commonly interview individually whenever a good application is received.

4 Fees

The tuition fee for this course is £9,250 payable to University of Roehampton.

5 Financial Support

5.1 Bursaries and Scholarships

A bursary is a sum of money received by students that does not need to be paid back. It is an incentive to help recruitment.

Eligibility and DfE bursary levels (and scholarship details) for different subjects for the 2021-22 training year will be published in autumn 2020 on the government's [Get into Teaching website 'Funding my Training' tab](#) and they normally pay more for high priority subjects where they are concerned that recruitment nationally may not meet their target.

For some subjects the DfE also adds early career payments that you would receive tax free later when you are working as a qualified teacher in the state sector.

You don't need to apply for a bursary, you'll automatically start receiving it once you begin your course so long as you meet the eligibility requirements. Bursaries are not means tested. Find out [how you'll be paid](#).

5.2 Student Loans for Fees and for Maintenance

You may also be eligible for a [loan while you study](#) - you'll have to apply for that [undergraduate student finance](#). You can take out a student loan even if you already have an undergraduate loan. Loans for tuition fees are not means tested (whereas loans for maintenance are means tested) but you should confirm this using the link.

5.3 Other Finance Support

While not provided directly by WLTSA, please be aware that as a full time student you would be eligible for cheaper travel in London using a student oyster card and in many boroughs you can get a reduction on your council tax payments.

5.4 Overseas Students

Find out about financial support if you're from [outside the UK](#).

6 Course Requirements

6.1 Qualifications Needed

- A computer related degree at class 2.2 or above.

We welcome graduates from a range of backgrounds e.g. those with digital making skills, industry experience, practical experience of software development or a degree in computer

science. Some offer may be made subject to completion of a subject knowledge enhancement programme.

- At least GCSE Grade C (or grade 4 for GCSEs sat in 2017 onwards) in English Language and Mathematics (or equivalent qualifications).

Where appropriate, please read our important guidance on [Overseas Qualifications](#) and if necessary also about [GCSE Equivalency tests](#)

Experience of children with special needs would be a significant advantage.

6.2 Personal Qualities

We want you to have passion and enthusiasm. We need trainees who can engage and inspire students to a love of learning, who are:

- committed to championing their students;
- open to learn about children’s physical/social/emotional/cognitive needs and how these can affect behaviour;
- in good health with the ability to cope with stress. Teaching is incredibly rewarding, but it also requires an element of resilience!
- professional and committed to equal opportunities;
- able to communicate well in written/spoken English, with at least basic computer skills and commitment to developing these.
- have a sense of humour and an ability to laugh at yourself.

6.3 Other requirements

A realistic understanding of the role of a teacher and some current issues facing the profession is also important. We recognise that it may not be possible to spend a couple of days observing relevant lessons in a state secondary school but this observation is not a ‘requirement’ and we recognise that it is unlikely to be possible for anyone while schools are maintaining discrete separation of their pupils in relation to Covid. [Top tips for getting some observational experience.](#)

Offers are conditional on satisfactory outcome of a Disclosure & Barring Service check (approx. £52) and an occupational health check (approx. £20) both administered through the university after an offer is accepted.

7 About the West London Teaching School Alliance

7.1 Who are we?

We are a large alliance of 60 schools: nurseries, primaries, special needs, secondaries, sixth forms; faith and non-faith, maintained schools, independent schools and free schools. We have formal partnership arrangements with three universities.

Most of our schools are in Hammersmith & Fulham and Kensington & Chelsea, but we also have schools in Westminster, Richmond, Twickenham, Ealing, Isleworth, Hounslow, Hillingdon and Brent.

The central Teaching School Office for WLTA is based at Sacred Heart High School, in Hammersmith.

The designation of ‘Teaching School’ is being withdrawn by DfE in Sept 2021 for all Teaching Schools across the country. For teacher training this is simply an issue of branding and our

operational delivery will continue as before, simply with a new name the *West London Teacher Training Partnership*.

7.2 Our approach to trainee recruitment

We pride ourselves in the support that we provide potential applicants and in the speed of we also run fortnightly information plus Q&A sessions. These explain the different qualifications; different routes into teaching; finance; and how it all works!

At the moment these sessions are online due to Covid restrictions but this may change over the course of the academic year. See how you can join one of these sessions here: [WLTA Information sessions plus Q&A](#)

‘That’s the first time that I have ever properly understood it all. Brilliant!’

The Teaching School Office is staffed full time with experts to talk to on the phone.

You choose the schools when you apply. If you perform well but fail to get a place at your preferred school, we continue to work with you, recommending you to other WLTA schools of your choice rather than rejecting you.

We place significant emphasis on getting a good fit between trainee and school because we are all keenly focussed on recruitment for qualified teachers in our alliance schools the following year.

7.3 The Accrediting Body

This WLTA course is accredited by University of Roehampton, who have been at the forefront of teacher education for over 100 years. Many members of staff are at the cutting edge of research in teacher education, which has a positive impact on the quality of our provision; tutors have extensive teaching experience in schools with many having served as consultants or as Ofsted inspectors.

The university experience is enhanced by its beautiful campus - unique in being both close to central London and set in parkland with grand, historic buildings and lakes side by side with newly built modern facilities.

7.4 Training with a disability

WLTA and all our partner universities are committed to supporting students with disabilities. Please contact us as early as possible in your application process so that your needs are met and support can be arranged.

You can also find support and information from the university accrediting the programme:

University of Roehampton: <http://www.roehampton.ac.uk/Disabilities/Support/>
